Professional Experience

Manuel studied and graduated in Strasbourg, France in 2001 with honours. There he worked on a diverse range of educational, social and public sports-oriented projects.

Manuel joined Architectus in 2005, working on various projects. He has over 12 years of experience through his involvement across a broad range of industry sectors, with a particular focus on education, public projects, infrastructure and commercial projects. Manuel has gained extensive knowledge and experience in design development, documentation, coordination of various project consultants and administering projects on site.

He recently played a key role in the successful delivery of the St Cuthbert's College Performing Arts Centre, a multi award-winning educational project.
